

Safety Note

General Notes:

Minimum Age: 10 years

For the driving simulator the following applies additionally:

Minimum body height: 150cm & compulsory seat belt

The VR experiences are limited in time and are supervised by our staff. The independent use of the equipment is prohibited.

When wearing the headset, you are blind to the world around you. Thus, please pay attention to the instructions of the supervisory staff present.

Please be mindful of other people wearing a VR-headset. Do not step inside the marked areas and keep a safe distance to the driving simulator.

In the presence of any cold symptoms, fever, etc., the use is prohibited. In case of doubt, the decision of the staff applies.

Medical Advice:

During usage, you may experience dizziness or nausea. Please contact the supervisory staff immediately in case of problems or first symptoms.

Regarding hygiene, our devices are thoroughly cleaned between each use. However, complete sterility (also regarding COVID-19) cannot be guaranteed. In this respect, participation takes place at your own risk.

Consult your doctor before using the product if you already have a serious medical condition (e.g. heart disease, epilepsy), wear a pacemaker or other implanted medical devices (the product may emit radio waves) or suffer from psychiatric disorders (especially anxiety disorders and post-traumatic stress disorder).
